Beauregard Parish Police Jury
Texas Eastern Road
Emergency Repair Work

Table with 4 columns: Description, QTY, UNIT PRICE, TOTAL. Rows include Asphalt Crew Mobilization, Asphalt Crew Day Rate, Asphaltic Concrete PG67.22 Mix, and a Total of \$35,280.00.

Quoted Mix Type Overlay: PG67.22

ABOVE COSTS HELD THROUGH FEBRUARY 2024

Current Asphalt Unit Price of \$97.00 (TAX FREE) was used to estimate this project. As we are uncertain of material pricing at the time of paving install, a surcharge clause for material escalations must be included in contract documents.

Acceptance of Proposal: _____ Date: _____

TERMS AND CONDITIONS: Pricing is based off December 2023 DOTD Asphalt Indices and is subject to fluctuations out of our control. Current pricing is valid for materials over the next 30 days from date of this proposal. Material increases may be passed to customer past this date at our discretion. RC Paving is not responsible for drainage or striping unless noted otherwise. General contractor required to proof roll all areas prior to scheduling asphalt work with minimum loaded 22-ton dump truck. Base failures resulting in excessive yield on material costs may be passed to customer at RCP discretion if RCP is not contracted for the base work. Pricing does not include MTV, core testing, or IRI Testing unless noted otherwise. Payments are due NET 30 from date of invoice and finance charges of 3.5% may be charged on balances owed over 30 days from date of invoice.

RFQ

For repairs of apron for Railroad crossing at Texas Eastern Road at U S Highway 190W per attached map = Lat/Longs: 30.51658,-93.15559 to 30.51624,-93.15577:

The existing longitudinal slopes on Texas Eastern Road, a Beauregard Parish Road at the UPRR crossing are too steep for low clearance trailers to cross without the possibility of hanging up. This project will correct the slopes leading to the RR Crossing by adding asphaltic concrete in layers. The final longitudinal slopes will allow safe passage for low clearance trailers. There will be no work on U.S. Hwy 190 travel lane or shoulders. This project will not affect existing drainage in any way.

The quote will provide all aspects of the project including mobilization, materials, signs, and labor.

Please provide an itemized quote and put the base amount below.

Quotes are needed by:

Base Amount: \$35,280.00

By: R.C. PAVING, INC.
